

Underground Detection

The advertisement features a scenic river flowing through a lush, green forest. A vibrant red dye trail is visible in the water, winding through the rocks. In the foreground, three containers of Bright Dyes are displayed: a small jar of Thallite, a bottle of Liquid, and a larger jar of Powder. The containers are white with red and blue accents and feature the Bright Dyes logo. The logo itself is stylized with the word 'BRIGHT' in large, bold, pink letters with yellow sunburst rays above it, and 'DYES' in smaller pink letters below it, with blue wavy lines representing water. A small NSF logo is also visible in the upper right of the image area.
